suggested use

- Wet bar and rub directly onto hair and body, or rub on hands or a washcloth and apply lather to hair & body. Gently cleanse your body from head to toe. Rinse well; rinse hair with apple cider vinegar if desired.*
- **Hair Technique #1:** Begin with thoroughly wet hair. Gently rub the wet shampoo bar directly onto your hair from scalp to ends in a combing motion. Gently massage scalp and hair, adding more water as needed, until a good lather forms. To prevent tangles, be sure to always work from the top down, don't pile your hair on your head, and use your fingers like a comb not a mixer. Rinse, rinse, rinse! Repeat if necessary. Rinse with apple cider vinegar if desired.*
- **Hair Technique #2:** Begin with thoroughly wet hair. Rub the wet shampoo bar between your wet hands to create a nice lather. Use your fingers like a comb and smooth the lather along the hair. Gently massage it into the scalp and hair, as you would with a bottled shampoo. Work up a good lather. Rinse, rinse, rinse! Repeat if necessary. Rinse with apple cider vinegar if desired.*

ingredient highlights

- **Rosemary**, considered sacred by ancient Greek, Roman, and Egyptian civilizations, has anti-inflammatory, antibacterial, antifungal, and analgesic properties. Its powerful anti-inflammatory abilities can reduce acne, under-eye puffiness, and other minor skin irritations. It also fights against sun damage and free radical damage while tightening skin to combat signs of aging.*

Rosemary infuses new life into thinning hair, stimulates hair growth, and can even be used to treat alopecia. It is also believed that Rosemary slows down premature hair loss and graying. Rosemary nourishes the scalp and removes dandruff.*

- **Tangerine**, with its fresh, uplifting scent, is great for conditioning and moisturizing the hair. It can promote hair growth by unclogging the pores in the scalp and stimulating blood circulation. Due to its antifungal and antiseptic properties, Tangerine is also a wonderful remedy for acne and other skin eruptions. It helps kill bacteria and disinfects the affected area while reducing swelling and redness.*
