## product summary

It was the French chemist Recluz, who was the first to distill the leaves of Rose Geranium. It has since become an important perfume ingredient and is often used as a substitute for Rose essential oil.\*

While Lavender essential oil is suited to the individual in whom emotions overwhelm the mind, Rose Geranium is for those whose rationality and personal drive deny the place of feeling and impression. Therefore, Rose Geranium helps to reconnect us with our life feeling, to our emotional sensitivity, relaxed spontaneity, and a healthy thirst for pleasure and enjoyment. With this comes a greater capacity for intimate communication – one in which being able to receive and experience is as important as the power to give and express.\*

Rose Geranium also has action on the spleen-pancreas; the oil may be used to assist the body with lethargy, diarrhea, and lymphatic congestion. It is indicated for chronic anxiety, infertility, and symptoms associated with menopause. Known as a great balancer for women, it can be especially helpful during pregnancy. It is a very strong essential oil and is best avoided as a body massage in pregnancy.\*

Rose Geranium is astringent, refreshing, relaxing, and has a lovely aroma. The oil's exotic, floral, and slightly spicy aroma is reflected in its well-known aphrodisiac effect – an effect that relates to its intrinsically sensual, liberating nature. Rose Geranium is ideal for the workaholic perfectionist – for the person who has forgotten imagination, intuition, and sensory experience.\*

As an anti-inflammatory essential oil, Rose Geranium may be compared to Lavender and German Chamomile, and is indicated for gastritis, colitis, psoriasis, and eczema. It can also be used for skin concerns such as acne, impetigo, and athlete's foot.\*

## responsible cautions

- Non-toxic, non-irritant, and generally non-sensitizing; possible contact dermatitis in hypersensitive individuals, especially with the Bourbon type.
- Keep out of reach of children and pets.
- If you are pregnant, nursing, or under a doctor's care, consult your healthcare provider prior to use.
- Store away from sunlight, at room temperature, with the lid securely tightened.
