product summary

As we age more and more of us are seeing our bodies outlasting our brain. The increase in devastating mind-related disorders is heartbreaking for so many.

Scientists have long known that inflammation contributes to these conditions, but lately, they have been turning up evidence that inflammation can affect the brain more directly and acutely, and might underlie a wider range of brain problems.

The ingredients in MIND provide powerful nourishment for the brain and help the body with inflammation responsible for causing memory and cognitive dysfunction.

The link between brain inflammation and mental health disorders explains why the first things customers feel when taking MIND are a sense of calm, increased feelings of happiness, and improved sleep.

ingredient highlights

- **Mucuna Pruriens:** Naturally contains high levels of Levodopa, or L-dopa, which plays an important role in behavior, sleep, mood, memory, and learning.
- **Bacopa Monnieri:** Its use as a nerve and brain tonic for memory, learning, and concentration goes back at least 3,000 years.
- **Docosahexaenoic Acid (DHA):** A crucial omega fatty acid for the healthy structure and function of the brain. Studies suggest benefits on brain health and aging.
- **Curcumin (Turmeric):** The Ohio State University found that Curcumin reduced the deadly amyloid plaque that develops in the brains of those with Alzheimer's.
- **Licorice Root:** Dr. Booze has found a substance in licorice root may prevent the nerve cell loss in the brain that's associated with devastating health problems.
- **Adaptogen Complex:** Adaptogenic herbs simultaneously calm and energize. Their unique abilities help improve mood, mental clarity, and physical stamina.
