

Pet Wellness

health blend 10ml

HBNnaturals
PRODUCT INFORMATION PAGE

ingredients

Cinnamomum camphora ct. 1,8 cineole (Ravintsara), Eucalyptus radiata (Eucalyptus Radiata), Cymbopogon martinii (Palmarosa), Melaleuca quinquenervia bs. viridiflora (Niaouli), Cannabis sativa (Hemp Seed) Oil

responsible cautions

- Never apply directly to an animal's muzzle area, inside nostrils, inside ears or mouth, or directly to genital areas.
- Do not get Essential Oils near or in the eyes. If Essential Oils accidentally get into the eyes, apply a carrier oil such as Grape Seed to a cloth and wipe over the area.
- Consult with a veterinarian before use if your pet has a serious medical condition or is on prescription medications.
- Avoid during first few weeks of an animal's pregnancy and do not use on puppies until after 10 weeks of age.
- Remember, less is best when it comes to Essential Oils. Do not be tempted to think that if it's good, more is better.

not to be used with

Cats: due to their highly sensitive metabolic systems.

Fish and Reptiles: due to their pH levels and aquatic environment.

Birds: due to their respiratory and metabolic systems.

Rodents & small mammals (gerbils, hamsters, rabbits, rats, etc.): there is not enough research on the use of Essential Oils with these animals to determine a safe use.

product summary

Pet Wellness is a gentle yet very effective blend. The essential oils in this blend are known to support and strengthen the immune response while being safe with very low toxicity.

May be helpful for those animals under a lot of stress as well as those who have recurring infections that don't seem to be cleared up by antibiotics and medications.

suggested use

- Add 6-12 drops undiluted oil blend to 1 ounce all natural shampoo and bathe the animal using caution not to get it into the eyes or ears.
- Diffuse 10-15 minutes at 4-6 hour intervals as needed, not to exceed 3-5 days. If longer term usage is necessary, switch to misting.
- Massage into the chest area of the animal using the massage dosage chart appropriate to species and size.
- Add 5-6 drops of undiluted blend to 2 ounces of distilled water in a cobalt blue glass or PET plastic spray bottle. Mist around the animal or spray into the environment; good for disinfecting the room when an animal is sick. Shake well before use. Do not spray into eyes or mouth.

massage dosage guidelines (dogs)

Babies & Elderly: 1 drop in 10ml carrier (3 drops per 1oz)

Miniature (Up to 10 lbs): 2 drops in 10ml carrier (6 drops per 1oz)

Small (11-25 lbs): 4 drops in 10ml carrier (12 drops per 1oz)

Medium (26-40 lbs): 6 drops in 10ml carrier (18 drops per 1oz)

Large (41-70 lbs): 8 drops in 10ml carrier (24 drops per 1oz)

Extra-Large (70+ lbs): 10 drops in 10ml carrier (30 drops per 1oz)

Horses and Large Animals: Follow instructions for medium to extra-large dogs, beginning with less and working up to the larger sizes as you gauge the animal's response and tolerance.

Smaller Animals (Miniature horses, cows, goats, sheep, etc.):

Follow instructions for small to large dogs, beginning with less and working up to the larger sizes as you gauge the animal's response and tolerance.
